Introduction

The Tables and Index 2000 covers all the cases reported in the volumes of the All England Law Reports for 2000, including the European Cases volume and Commercial Cases volumes. The index is a continuation of the Consolidated Tables and Index 1936–1998 and the Tables and Index 1999. For information concerning the use of this index readers should refer to the introductions to volumes 1 and 2 of the 1936–1998 index.

The tables and index consists of five sections:

- a table of cases reported and judicially considered; this table lists alphabetically all cases reported in the All England Law Reports in 1999, and in addition it lists all cases of any date which have been reported in the All England Law Reports and the All England Law Reports Reprint and which were judicially considered, i e applied, distinguished, overruled and so on, in cases reported during 2000
- a table of practice directions and notes issued in 2000
- a table of statutes etc judicially considered in 2000
- a table of words and phrases judicially considered in 2000
- a subject index, including a full system of cross-references, of all cases reported in 2000

The Tables and Index 2000 together with the three volumes of the Consolidated Index 1936–1998 and the Tables and Index 1999 provide a complete index of cases reported in the All England Law Reports from 1936 to the end of 2000.

The index is separate from the 2000 volumes of the All England Law Reports and should therefore *not* be sent in for binding with the loose parts of the reports.
